RENO! NEVADA

Purpose...

To continue in the second year to establish a showcase market place in one of the most progressive commercial producing areas in North America, Reno is one of the most desirable cities west of the Rockies. In addition, this is an opportunity for these breeds to demonstrate "9 YEARS OF PROGRESS IN NORTH AMERICA". Each breed will have association booths, display of commercial cows with percentage calves, carcasses where possible, and other visual aids to demonstrate the use of these genetics in the western cow herd.

## Administration Farm Aid Plan Criticized by Farm Heads

82nd Year, No. 14 Fort Worth, Texas, April 6, 1978 Twenty-Four Pages

### Stuph & Thangs

TH' CAT O' NINE TAILS IS "INFLUENCE"

Now that the Federal Bureaucrats have got just about every Governor & Mayor coming to Washington to hand out their bigger & better pieces of the pie, the native arrogance of these people we used to smilingly refer to as Public Servants, is simply awe inspiring. Recently when belligerent Farmers were in Washington on most occasions they had little or no luck in getting their views heard by the Bureaucrats. They did see Congressmen and in that process got some things moving.

However, two notable bills of by-play happened at the USDA offices. On the occasion of the regular meeting of Secy. Bergland and his milk price committee when they were to establish higher milk support prices they had hardly got settled in their seats when word came that a gang of forty or fifty "demonstrators" had rushed the building and were looking for trouble.

## Farm Bureau, American Agriculture Strikers Claim Mondale-Bergland Would Aggravate Farm Crisis, AAM Head Challenges Figures

The latest program advanced by the Agriculture Department received loud rejection from spokesmen for the American Agriculture Movement and also was condemned by the American Farm Bureau Federation, the nation's largest farm organization.

The USDA plans, announced last week by Vice President Mondale and Agriculture Secretary Bergland would offer incentives for greater land diversion, expand the grain reserve, permit livestock grazing on wheat acreage, increase the loan rate on soybeans, increase payments on several crops for diverted acreage.

It was generally believed the new Administration proposals were aimed at heading off Congressional action by the House-Senate Conference Committee on the hastily passed Senate package which included the flexible parity concept in the bill presented by Sen. Dole of Kansas and the bill presented by Sen. Talmadge which would have opened the way for diversion of some 31 million acres. Both the Administration and Farm Bureau saw some merit in the Talmadge bill, but spokesmen for the American Agriculture Movement had already gone on record against the Talmadge-Dole legislation as not raising prices sufficiently.

Reports this week from Washington indicated the Senate bills before the Conference Committee were in deep trouble since the House had never passed them and there were questions as to how much authority the committee might have. The committee did remove the section which called for labeling meat or meat products which contained imported meat.

Daryl Schroeder, Springfield, Colo., the American Agriculture farm strike leader, denounced the USDA plans as a trap and said "It's absolutely ridiculous to think we'd fall for that kind of thing."

In defending their new farm program, USDA pointed out the improvement in farm prices in recent months and expressed the view that perhaps the worst was over and expressed the opinion that striking farmers' claims of crop reduction were exaggerated.

Schroeder vigorously denied that farmers were weakening on their decision to cut production and claimed government reports of this kind were "not true."

**TSCRA Convention Elects Armstrong As New President**

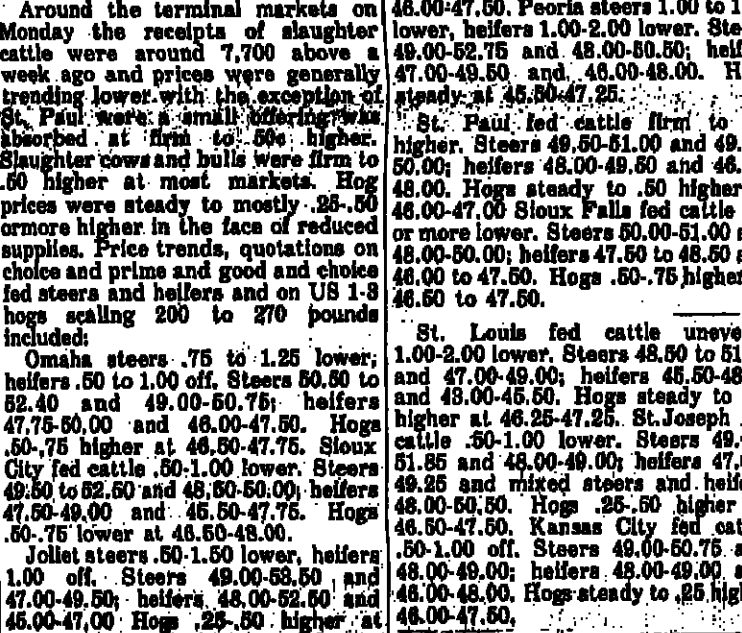

Fort Worth, — Former Treasury Secretary John B. Connally told 2,100 fellow cattlemen in San Antonio last week that America's two great priorities are energy development and a strong agricultural policy. Connally, who was interrupted several times by applause, was the keynote speaker at the 101st annual convention.

tion and trade show of the Texas and Southwestern Cattle Raisers Association March 28-29.

The former Texas Governor also said foreign markets for U.S. livestock and beef should be expanded and that he favored the labeling of imported beef so consumers could know when they are eating foreign meat.

Other program speakers were Texas Governor Dolph Briscoe, TSCRA President J.A. Whittenburg, III, National Cattlemen's Association President Dick McDougall, Raymond M. Momboloss of the Pacific Legal Foundation, TSCRA Secretary-General Friedlander, editor of Solar Engineering Magazine, and Texas CowBelles President Emma Lee Collier.

John B. Armstrong of Kingsville was elected president of the 14,000-member producer group headquartered

in Fort Worth. Also elected were John S. Cargile of San Angelo as first vice president and Frates Seelgion of San Antonio as second vice president. Don C. King was reappointed secretary-general manager.

Named to the board of directors were John Dudley of Comanche, Richard J. Gates of Catarina, Henry Clay Koonce of Placedo and Chris Lacy of Alpine.

In his president's report, Whittenburg told the group that TSCRA had been very active on the legislative front and cited 18 issues on which testimony or policy statements had been filed during the year. On the national and state level, he gave the Association good marks for its legislative efforts, but warned that many issues warranted continued attention.

Whittenburg underscored the optimism about cattle prices expressed by most cattlemen attending the convention.

"I do hope the price swing will move upward at a rate which will help us

Bergland or any other Big Wig they could find. The meeting was adjourned post haste while Bergland raced to a cooler climate.

A similar hasty retreat took place as representatives of the Food Safety & Quality Service, including Administrator Robert Angelotti, had to hold a meeting with meat industry people concerned over the New Federal Meat Grades. This session originally slated for the USDA South Building led to a basement auditorium in the Smithsonian's Freer art gallery, far from the militant farmers might find 'em.

Angelotti was his usual supremely contemptuous self and insulted the meat industry spokesmen in about as crude a demonstration of Bureaucratic high handedness as you are likely to see. He informed 'em he had not gone shopping for meat since age 12. Which, we presume, makes a meat authority out of him. He also informed these meat people, who happened to be about as knowledgeable a group as

you could assemble, that he felt the meeting was wasted. "Provide us factual information," Angelotti yelled. "We're not running a popularity contest. What I've gotten today is of no use to me. What I've gotten is mostly emotion," Angelotti said.

Obviously Angelotti is another of those Bureaucrats who does not want to be confused with any facts. Angelotti had his legal counsel along side and when it was suggested that the proposed new regulations were illegal, they scoffed at the idea. So it looks like another trip to the Courthouse may be in order for the Meat People to convince Mix Carol Tucker Foreman, and her boy Angelotti, they do not yet have the Divine Right.

Incidentally, the new "in" word among the Bureaucrats is "Government Influence". This was explained by HUD Administrator Mix Patricia Harris in defending the new Urban Development plan. She explained it this way, "Government can influence whether the Cities and Mayors develop inner city real estate and work programs with Government power of the purse. After all, Government Influence sounds nicer than Government

Coercion, but it's synonymous. These thinly veiled threats by Carter's crop of ex-Naderites, Consumer radicals, etc., which are sandwiched into the Bureaucracy are getting thinner and thinner and this arrogance is causing Jimmy much trouble. However, in the case of his problem in Mix Harris, she has been declared "fire proof" and the only way he can correct this mistake is to make her quit in frustration. It'd take more guts than he's shown yet to fire a black female woman, don't you think?

Ever think, The Editor. P.S. Uncle Dunk figures Carter's Brazil trip was sure wasted money & effort. After getting disagreement from President Galt when he tried to butt-in on their human rights & nuclear power, he capped the climax by meeting with a group of anti-government dissident priests before taking off for Africa. So much for hurrin' policy. Dunk notes where President Carter plans to announce a really tough program to control inflation in the near future. So far it appears cutbacks in Defense Spending, while the Soviet's widen their lead, seems to be the main thrust. Dunk

Says don't be surprised if wage and price controls don't surface, soon, tool Dunk reports a Federal Court in California ruled that USDA's rules concerning issuance of emergency food stamps were not legal. USDA's rule was that the free stamps could be issued only if the recipient demonstrated proof of a non-member of the household said there was need and emergency stamps at no cost could only be issued once every six months. **AVOID CHANGING WEATHERS FOR MANY YEARS**  
Perma-cups are molded urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wearing, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been replaced in 8 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 28th year serving ranchers.

**Kimbell MEDICATED FEEDS ARE MONEY MAKERS**

It goes without saying that no program or type of feed can guarantee a profit on a particular set of livestock. However, it is possible to guarantee that with proper management a feeding program will make livestock more valuable - better money makers.

**KIMBELL Medicated Feeds Are Designed to Improve Animal Health and Balance Nutrition**

This type of program improves the appearance, gives livestock the "good doing" look - this convinces your buyers they are "worth more"

This type of program actually makes your livestock "do better" - control of disease and parasites adds pounds - they are "worth more."
